

Khushi educational and social trust

Annual Report 2017-18

English E-Teach

This program is for the school children studying in regional language. Principally an initiation of the BCPT, we implemented this program this year in schools between Kurla to Ambernath. Under this program, we provide free English DVDs to students of Classes 1st to 4th prepared by BCPT based on their English syllabus.

The aim of this initiative is to

provide every section of the society equally good quality education that they are entitled to receive. Due to the necessity and demand of English education, the number of students studying in regional languages is dwindling. This is the reason that students in regional language schools belong to the under privileged section of the society. While we believe that children should learn in their mother language as it is easier for them to understand the subject matter, they should also be taught english in a way that is easy and interesting.

This year we conducted the program in about 224 schools. We trained the teachers, with our facilitators being available for assistance for the entire year. DVDs were shown using equipment such as computers, TVs, projectors and whatever was available with these

schools. We got good co-operation from all the teachers.

Some teachers reported that due to this program, the students started attending the classes regularly. The students of vernacular medium school learnt to pronounce english words correctly. This feedback from the teachers is evidence that this program is a success.

Medium	No. of students					
	Private	BMC	TMC	AMC	ZP	Total
Hindi	1,301	2,224	834			4,359
Marathi	12,189	1,534	1,430	458	324	15,935

Urdu	2,234	2,445	2,635	173		7,487
Kanand		39		51		90
Tamil				87		87
Telugu		79		26		105
Total	16,855	6,393	4,899	795	324	29,266

English Fair

This year, we organized English Fair, as the part of English E- Teach program. The course material of the Fair was based on English Syllabus of Std. 1st to 4th.

English Fairs are organized so that children develop and take interest in English language. This year, 23 schools (TMC, AMC, BMC and private) participated in English fair.

Different activities were conducted in the course of the English fair, with minimum 16 activities taken by students. One week before the Fair, our facilitators trained the students and the subject was explained to them with the help of teaching aids.

Students observed through games, different activities in English language. Through the medium of English fairs, students try to speak in English. When their parents saw their confidence in English language, they were happy and thanked us for our efforts we had put in organizing and coordinating the English Fair.

English Camp

From this year, we started English Camps to increase confidence level of children in English language. In the

period of 11th to 19th April 2018, 150 students from two schools run by the Municipal Corporation and Private schools participated in our project.

This year Following activities were conducted in English camp:

- Drawing with alphabets.
- Poetries with action (Dance).
- Story telling.
- Games and function with parents.

Students observed how to make drawings with alphabets, how to do dance with poetry, how to do drama with story and how to make two and three letter words through games.

The students learnt and number of activities in these three days. On the final day, they performed and displayed the skills they had learnt in front of their parents. Parents were overjoyed to see their children's performance and confidence in English language and were very happy and appreciated our work.

Astro–Graphia

Astro – Graphia is an interesting way to study Astronomy and Geography. The objective of this project is to make the subjects of geography and astronomy easy to understand for children and to instill a sense of curiosity and scientific temper.

This project has been devised on Geography's syllabus of std. 5th to 9th. In the course of this project, students not only learn geography with practicals, but also with some joyful creative work. Looking at the Sun through Telescope and Solar filters, making their own amazing mirrors and cards of phases of moon are the some highlights of this project.

Astro – Graphia also provides important information related to Solar System, Galaxy, and miracles on earth with the help of slide shows.

In Astro-graphia, we organize one day exhibition in schools. In this academic year, we organized Astro-Graphia exhibitions in 4 school.

These exhibitions proved to be very beneficial for the children as they got to explore the subjects of astronomy and geography in hands on and innovative mediums. The schools were also very appreciative of the concept and the manner in which the program was conducted.

Art Masti

Art Masti is an initiative for encouraging creativity in children. Encouraging children to think, ideate and express themselves creatively increases their confidence.

The activities in Art Masti are designed so that children develop an interest in art and cultural outlook in life. We have been conducting this program for the past two years. The programs were conducted in Municipal Corporation and private schools. In the current academic year, 840 students have participated and gained from this program.

We also conducted Art Masti Program designed especially for secondary sections. The entire program was designed for 5th to 8th std. We conducted 13 workshops in this entire academic year, with activity durations of two hours each. In the workshop children participated in art and craft. They learnt and enjoyed a lot of new things. It is most important for children to develop their hidden talents, creativity and imagination.

Summer Camp

The Summer camp is a medium of joyful learning for the Students of BMC schools. Our aim is to give same opportunity to all the students from different sections of society.

This is four days camp, which has different activities on each day like Art Masti, Drama, Dance, Origami, Astro-graphia, Puppet making and Warli painting. We involve professional experts for all the activities. All the children have hidden talents and aptitude for art; we just encourage and help them polish their skills.

This year we organized the summer camp in Pathan Colony BMC School, Bhandup West. 100 students from class 3rd to 7th std. participated in this camp, which was conducted from 16th April to 19th April 2018.

On the final day, we involved all the parents during the closing ceremony to show them what the children had done in the four days. Parents were surprised and very much happy when they saw their children performing on stage.

Project	No. of School	No. of Students
English E Teach	223	29,266.00
English Fair	4	2,367.00
English Camp	2	150.00
Astro-Graphia	4	585.00
Art Masti	12	840.00
Summer Camp	1	100.00
		33,308.00

Thanks

We sincerely and whole heartedly thank our sponsors, Principals and Teachers of various schools, Facilitators, Resource Persons, Social Workers, Students and all those who helped us and worked with us to make our porgrammes a grand success.
